

State System of Higher Education Annual Report of Key '93 Deferred Maintenance Appropriations and Expenditures

In the Fall of each year, the facilities directors at each university will receive a spreadsheet file that shows the Key '93 information that was reported for the previous year. The spreadsheet will indicate all encumbrances and expenditures as reported. The university should then update the figures, indicate new projects, and change any encumbrances to expenditures as appropriate. An example of how the spreadsheet will look is shown below. The report is required to be submitted to the Office of the Chancellor, electronically, by December 31.
